Dear Bob:

Reference is made to a recent discussion concerning CMCC Doc. No. 1133X5.48. This letter confirms this discussion and furnishes additional information on the subject.

We are interested in a proposal on the first point of paragraph two only. An R-L indication for Bands 1A and 1B would be of considerable value. The cost and feasibility of a field modification for both System IV and its Read-Out Equipment and time factor of this change is requested.

The other portions of the proposal cannot be considered at this time.

Sincerely,

Dan
